Summary

I am a 22 year old software engineer excelling at a number of different languages. Attention to detail, browser and code testing are essential for me because I believe every user deserves a great experience. I have maintained and contributed to many open-source projects. In my free time I run, workout, am an aspiring yogi, play instruments, and compose music.

Languages

- HTML and CSS
- JavaScript and HTML5 API
- PHP
- Bash shell programming
- Ruby

Software

- Adobe Creative Suite Photoshop, Illustrator, Dreamweaver, Excel, and InDesign
- Git version controlling and repository managing
